PROFESSIONAL PROFILE

I am a software developer with 2+ years of experience in software industry creating many incredible projects. I am a sharp-minded person with leadership & coaching skills. Strong time-management skills and work ethic.

WORK EXPERIENCE

Software Developer

April 2021 - June 2022

Effectively worked in numerous projects and successfully completed all of the projects with a success rate of 100%. I am a good team worker having the skills like conflict-management and active listening. While working as team mate I faced many typical situations which questioned my virtue. I conquered all those obstacles while flourishing my skills in the industry. I ensured that I gave my best to every project that I have part in while making sure that I'm following all the rules and regulations of the company that I worked with.

Team Lead

July 2022 - February 2024

Led team of 50 employees in a busy retail research and analysis firm. Oversaw the day-to-day operations, including meeting with team leaders and auditing activity. Implemented the push towards Artificial Intelligence and Machine Learning to aid in exponentially larger analysis tasks able to be completed. Ensured company was meeting all legal requirements and local regulations. Pushed for constant growth among management team and general staff.
